Section IV: Thematic roundtable networking

At the interactive roundtables, each dedicated to a certain topic, expert facilitators will assist thinking together in small groups, while giving or seeking answers to any questions raised. When registering online, please select the thematic tables most interesting to you, and join the exchange of ideas and experiences!

16:00 - 17:00 Table 1: Increasing labor efficiency as part of the automotive supplier industry structure change in Hungary

CLOSED

Moderator: **Tamás Rózsa**, Managing Partner, Top Tier Consultants

16:00 - 17:00 Table 2: Industry 4.0 - Corporate experiences and best practices

CLOSED

Moderator: **István Rédai**, Plant Manager, Titán '94 Kft.

16:00 - 17:00 Table 3: Supplier development - Change of approach, improving efficiency, innovation

CLOSED

Moderator: **Tamás Vass**, Head of Central Logistics, BPW - Hungária Kft.

16:00 - 17:00 Table 4: Autonomous driving solutions

CLOSED

Moderator: **Dr. Gergely Debreczeni**, Chief Scientist, Aimotive

16:00 - 17:00 Table 5: Small and mid-sized companies in the automotive: continuous development - but how?

CLOSED

Moderator: **Szilveszter Hegedűs**, Project Operative Leader and Industrial Development Advisor, IFKA

16:00 - 17:00 Table 6: Leadership 4.0 - agile beyond the hype

Supplier or OEM, Hungarian owner or global group – doesn't matter. The question of how to design and operate an operational management system at an automotive company is an interesting topic for everyone. However, the industry still needs significant improvements in this area. Also the biggest ones! Agile leadership or traditional leadership structures? What is (lean) „leadership" at a manufacturing company? Why is it necessary? What are the most important elements? What can we learn from car manufacturers and what can we do better about leading / leadership system?

Moderator: **Róbert Velenczei**, Country Manager, STAUFEN.AG

16:00 - 17:00 Table 7: Using innovative and digital technologies to improve the efficiency of manufacturing and logistics processes

CLOSED

Moderator: **Csaba Csombor**, Senior Consultant, T-Systems Magyarország

17:00 - 17:10 Summaries from facilitators

17:10 - 17:15 Closing remarks
