

Big Office Consumption Based IT 2019 program

The seminar will run parallel to the sections of the Big Office Day conference, so you may attend those sections as well.

Big Office Consumption Based IT 2019 is part of the uniquely complex Big Office Day event to be held on the third floor of Groupama Arena. For the latest trends and innovations in office development, we recommend visiting the free office market expo and the Office Stage club, which is also free to attend.

At the Big Office Day 2019 conference, which runs concurrent to these, experts and successful business executives will talk about the most pressing issues in office tech and HR.
